

Instruction: Replace the cat in mirror with a fox
Agent_Instruction: Edit only the entire cat's reflection in the mirror on the left side of the image, inside the mirror surface. Replace that entire animal with a fox reflection matching the cat's pose in the same position. Do not alter the real cat on the right.

Instruction: Change the cat in mirror to a rabbit
Agent_Instruction: Replace the cat's reflection in the mirror on the right side of the image, inside the mirror surface with a rabbit in the same position. Keep the rest of the scene unchanged.

Instruction: Change the cat in mirror to a tiger
Agent_Instruction: Replace the cat's reflection in the mirror on the left side of the image, inside the mirror surface with a tiger in the same position. Keep the rest of the scene unchanged.

Instruction: Change the cat not in mirror to a tiger
Agent_Instruction: Replace the cat on the right side in the right foreground, sitting on the wooden shelf with a tiger in the same position. Keep the rest of the scene unchanged.

Instruction: Change the red tomato to a kiwi
Agent_Instruction: Replace the tomato on the right side, next to the yellow tomato and behind the green tomato with a kiwi in the same position. Keep the rest of the scene unchanged.

Instruction: What is the object that can be used to eat the cake? Remove this object.
Agent_Instruction: Remove the fork. Keep the rest of the scene unchanged.

Instruction: Which food contains most vitamin? Please replace this food with an orange.
Agent_Instruction: Replace the likely the green apple, as it's the most prominent fruit-like item that could be swapped for another fruit (an orange) on the right side of the tray, next to the white mug with a orange in the same position. Keep the rest of the scene unchanged.
